**MASTER YOUR
PARKING HABITS**

**SECURE YOUR
TECHNOLOGY**

**STAY ALERT
IN HIGH-RISK
MOMENTS**

**AT HOME
SECURITY**

- ✓ Choose well-lit areas with CCTV cameras and security presence.
- ✓ Park close to entrances where foot traffic is higher.
- ✓ Never leave valuables visible inside your vehicle.
- ✓ Always physically check that doors, windows, and the boot are locked.

- ✓ Store your key fob away from doors and windows to prevent signal amplification.
- ✓ Manually check your doors are locked after pressing your remote to defeat signal jamming.
- ✓ Consider a steering wheel lock as a visible deterrent.
- ✓ Update your vehicle's security software regularly.

- ✓ Approach your vehicle with keys ready, especially at home.
- ✓ Check your surroundings before getting in or out.
- ✓ Vary your routes and routines when possible.
- ✓ Keep windows up and doors locked while driving.

- ✓ Install good lighting around your driveway and parking area.
- ✓ Consider a security gate with an intercom system.
- ✓ Never open your gate until you've checked that no one is following you.
- ✓ Wait until your gate is fully closed before leaving your vehicle.
